

niGLON

A *ARCTIC*
EDGE

Square-edged Traditional
Wiring Accessories Range

Introducing

The Arctic Edge Range

A white, square-edged, moulded accessory manufactured in a robust Urea construction. Arctic Edge offers traditional design values for new, or existing installations.

Our square edge switches and sockets are fitted daily in homes, offices and most buildings, so we have designed them to be reliable, easy to install and compliant with the latest regulations.

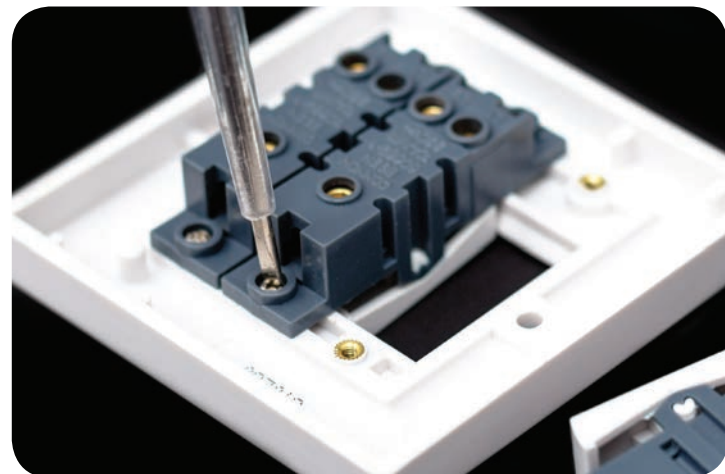

Not only are they perfect for first time installations they are great as a retro fit product; an Arctic Edge socket, with it's clean white finish will help make any room feel refreshed and brand new again.

Now read more about all the features that help make this range stand out from the crowd.

USBs

Smart USB socket outlets are able to detect USB devices when charging and adjust the current, turn to standby when device is fully charged and have the ability to protect the devices in the event of an overload.

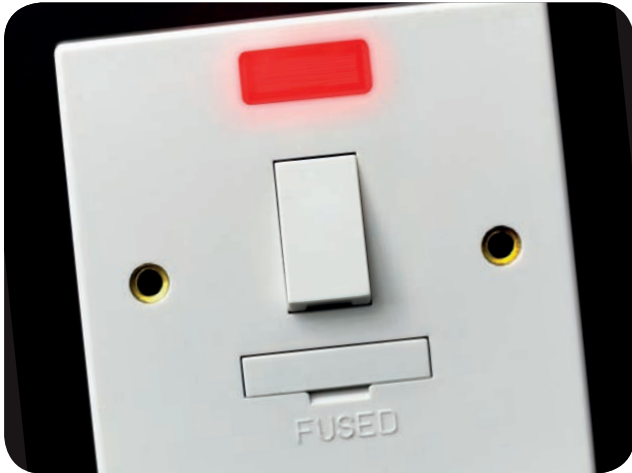

Modular Switches

All Arctic Edge 10AX light switches are constructed using a highly adaptable modular design, allowing reconfiguration on site, without the need for a full grid system.

Product Features

Unique & Practical

Neons

Where applicable flush red neon indicators have been fitted, giving a clean sophisticated look to the range. The use of neons is unobtrusive in daylight and produces a soft glow in the dark.

Antimicrobial Properties

The Arctic Edge range is made from a high grade Urea, which has inherent antimicrobial properties, helping to stop the spread of pathogens such as MRSA, E.Coli, Salmonella and Klebsiella Pneumoniae.

Guarantee

This range is manufactured using high quality electrical components and materials, backed up with a 20 year guarantee*, giving you the confidence that these switches will stand the test of time.

*2 year guarantee on electronic products.
