# PREMIUM EDGE

## Slimline Decorative

A comprehensive, modern, ultra-slim, decorative, metalplated accessory range finished in brushed and polished chrome with white or black inserts.

### USBs

Smart USB socket outlets are able to detect USB devices when plugged in and adjusts charging current, turn to standby when device is fully charged and have the ability to protect the devices in the event of an overload.

### Coloured Inserts

Two subtle insert colours; black and white are available in this range, designed to sit neatly alongside the brushed and polished chrome finish of the faceplates, guaranteed to compliment any style of interior.

### On Status

Where applicable flush red neon indicators have been fitted, giving a clean sophisticated look to the range. The use of neon is unobtrusive in daylight and produces a soft glow in the dark.

### Modular Switches

All 10AX light switches are constructed using a highly adaptable modular design, allowing reconfiguration on site, without the need for a full grid system.

### Edge to Edge Gasket

Concealed edge to edge gasket to prevent tarnishing of the plate where moisture is present during installation, such as on freshly plastered or painted walls.

### Low Profile

4mm thick faceplates result in subtle products that will be highly practical in their use but unassuming in their location.

**20 Year  
Guarantee\***

\*2 year guarantee on electronic products
