DECORATIVE RANGE

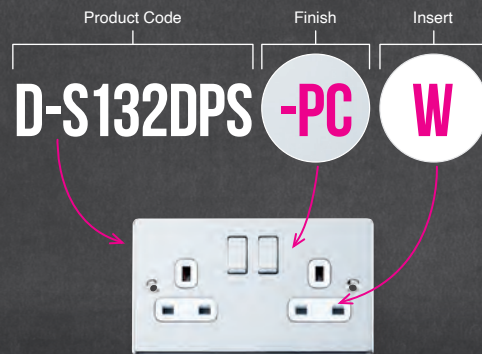

Introducing The Premium Edge S Range

Brushed Chrome, Polished Chrome, Antique Brass & Matt Black

A contemporary low-profile design, manufactured with stainless steel faceplates, in 4 luxurious finishes.

Installed in either a traditional or contemporary property, you will find that the Premium Edge S range has been designed perfectly to compliment any style of interior décor. The unobtrusive and sophisticated look will enhance other room features such as light fittings, door handles or even items of furniture, to meet the demands of the most discerning clients.

Now read about all the features that help make this range stand out from the crowd.

*If no insert colour is needed just add an M to the end

How to order

- Each product in the Premium Edge S range is available in Brushed Chrome (-BCM), Polished Chrome (-PCM), Matt Black (-MBM) & Antique Brass (-ABM).
- Each finish comes with one insert colour option (Brushed Chrome has two for some products), Brushed Chrome, Grey, (-BCG) or Brushed Chrome Black (-BC), Polished Chrome, White (-PCW), Matt Black (-MBB) & Antique Brass, Black (-ABB)
- When ordering individual items make sure to add on the correct finish and insert colour codes to guarantee you receive the desired product.
- The example shows the code for D-S132DPS-PCW a two gang socket outlet in polished chrome with white inserts.

Premium Edge S Product range

Features

USBs

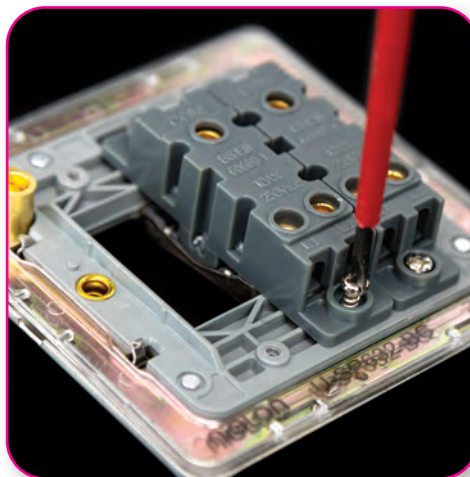

Smart USB socket outlets are able to detect USB devices when plugged in and adjusts charging current, turn to standby when device is fully charged and have the ability to protect the devices in the event of an overload. **Available in 4.8A A+C & 45W** versions for super fast charging.

Low Profile Design 4.5mm | Stainless Steel Plate | Four great plate finish options | Metal To Metal Rockers (Reduces SKU's) | Matrix20 Compatible

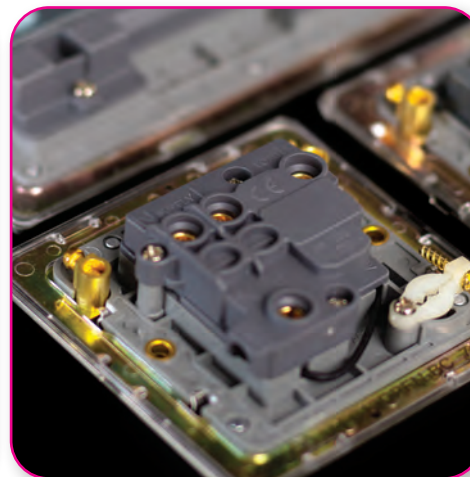

LEDs

Where applicable flush red neon LED indicators have been fitted, giving a clean sophisticated look to the range. The use of neon LEDs is unobtrusive in daylight and produces a soft glow in the dark.

Modular Switches

All 10AX light switches are constructed using a highly adaptable modular design, allowing reconfiguration on site, without the need for a full grid system.

Edge to Edge Gasket

Concealed edge to edge gasket to prevent tarnishing of the plate where moisture is present during installation, such as on freshly plastered or painted walls.

Metal to Metal Rockers

Creating a sleek looking & lavish faceplate. No visible plastic switch surrounds.

10AX Light Switches - 1 Gang 2 Way

Change the ambience within any room when controlling lighting sources with the sleek and versatile Premium Edge S range of 10AX switches.
