## A Type RCBO

(1P+N - Space Saver)

Compact single module protects against earth fault currents (inc. pulsating DC currents), overload and short circuits.

## SL + N A Type RCBO

(Switched line and Neutral)

Compact switched neutral RCBO's provide double pole switching for complete isolation of faulty circuits. For installations where double pole isolation is a requirement. Reduces installation and commissioning time. Suitable for TN & TT systems.

## Arc Fault Detection Device

(1P+N)

Single module AFDD with combined A Type RCBO protects against arc faults, earth fault currents (inc. pulsating DC currents), overload and short circuits.
