## Circuit Protection

# M3CU8/80-A RCD Controlled Consumer Unit

### Technical Drawing

### Technical Specifications

|  |                               |
|--|-------------------------------|
| <b>Material Composition</b>              | Steel (Powder Coated)         |
| <b>Paint Colour</b>                      | RAL 9010                      |
| <b>Configurations</b>                    | 8 Module 6 Free Ways          |
| <b>RCD</b>                               | 80A-30mA : BS EN61008-1       |
| <b>RCD Type</b>                          | Type "A"                      |
| <b>RCD Terminal Capacity</b>             | 35mm <sup>2</sup>             |
| <b>Rated Operational Voltage (Un/Ue)</b> | 230V AC                       |
| <b>Rated Current of Assembly (InA)</b>   | 80A                           |
| <b>Rated Frequency</b>                   | 50Hz                          |
| <b>IP Rating (Ingress Protection)</b>    | IP20                          |
| <b>IK Rating (Impact Protection)</b>     | IK05                          |
| <b>Dimensions</b>                        | 237 (H) x 197 (W) x 110mm (D) |
| <b>Standards</b>                         | BS7671:2018, BS EN61439-3     |
| <b>Certification</b>                     | Semko, CE, UKCA               |

All specifications are SEMKO Certified
