

### POTENTIOMETER POT10

**22mm potentiometer with nylon 6:6 bezel.  
Non-flammable. 270° spin angle.**

#### General Characteristics

|                                     |                    |
|-------------------------------------|--------------------|
| Standards                           | BS EN 60393-1      |
| Resistive value                     | 10 kΩ              |
| Maximum current                     | 12.2 mA            |
| Maximum power                       | 1.5W (70°C)        |
| Dielectric strength contact-contact | 1750V rms          |
| Isolation resistance                | 10 MΩ min (500VDC) |
| Degree of protection                | IP65               |
| Operating temperature               | -15°C to +80°C     |

#### Technical Drawing

#### Additional Information

This product is for use by skilled persons or instructed persons. The installation of this product must comply with current IEE regulations. Terminals, including those factory fitted, must be checked for correct tightness before commissioning. All terminals should be periodically checked for correct tightness.
